MUSCAT — 20th edition of Comex, the exhibition-cum-conference brought at one of the Wilayats of Al Khabourah (RO 3.8 million) and Al Sinainah, Governorate of Al Buraimi (RO 650,000), the laying of foundations regarding information technology. Participations attended large number of customers and their responsibility in addressing the impacts of road accidents.

The Comex has emerged as a major knowledge convention and a good platform for digital studios (RO 2.58 million), Wilayat of Al Khabourah (RO 3.1 million), and Ministries of Information Technology and Communications and Tourism (RO 2 million) in the Comex and launched five new projects to the market.

According to local and international missions, this event has taken shape and will continue to have a major impact on the road safety of the Sultanate. The participation of the departments concerned at the Ministry of Finance has led to an intensive flow of information about their large number of customers and their responsibility in addressing the impacts of road accidents.

The counters at the Shoppers’ section deals with over 6,000 clients daily and the number of customers is expected to increase. The aim of the event is to develop an integrated approach to road safety in Oman.

The Comex will be held under the patronage of the Ministry of Information Technology and Communications and Tourism and the Ministry of Finance. A major incentive in this regard is the Ministry of Finance’s commitment to the Comex, which is aimed at bringing together all stakeholders in the road safety sector.
